This document is an informational base prepared for the site. It should be reviewed by a legal professional before final publication. The Spanish version prevails in case of discrepancy.

01 WHAT THEY ARE

Cookies and similar technologies

A cookie is a small file that a site stores in your browser to remember information between visits. In this policy, «cookies» also covers equivalent technologies, such as the browser's local storage or the identifiers used by analytics tools.

02 WHY

Our approach

We use the minimum needed for the site to work and, only with your permission, some that help us understand how it is used and improve it. Anything not strictly necessary stays off until you allow it.

03 CATEGORIES

Types we use

CATEGORY	PURPOSE	BASIS
Necessary	Enable the site's basic operation and remember the cookie choice you made. Without them the site cannot work properly.	Always on
Analytics	Tell us, in aggregate, which sections are visited, for how long and where visitors come from, so we can improve the content.	Require your consent
Marketing	Allow measuring campaign results and showing relevant content outside the site.	Require your consent
Preferences	Remember choices such as language so you don't have to repeat them.	Require your consent

04 DETAIL

What is stored today

NAME	CATEGORY	WHAT IT DOES	DURATION
ica_consent_v1 (local storage)	Necessary	Stores your cookie choice.	Until you delete it or change your choice
_ga, _ga_* (Google Analytics)	Analytics	Tells visits apart in aggregate. Only loaded if you accept the category and measurement is enabled on the site.	Up to 2 years

Today we do not use marketing or preference cookies. The categories exist so that, if they are ever enabled, your choice is respected. Interactive demos do not store information in your browser and only connect to third-party services after you click «Start».

05 YOUR CHOICE

How to accept, reject or configure them

On your first visit a panel appears where you can accept all, allow only the necessary ones or configure each category separately. Your choice is stored in your own browser. You can change it any time from the «Cookies» button in the footer, which reopens the same panel without leaving the site.

06 BROWSER

Additional control

Your browser also lets you block or delete cookies at any time, usually from its privacy or site-data section. Note that blocking all cookies may affect how this and other sites work.

07 DURATION

How long they last

Session cookies are deleted when you close the browser. Persistent ones, such as the record of your choice, remain until you delete them or they expire. Analytics cookies are kept for the periods defined by the relevant tool.

08 THIRD PARTIES

External services

Some cookies are set by providers of analytics or measurement services and are also governed by their own policies. They are only activated if you authorised the corresponding category.

09 CHANGES

Updates to this policy

If we change the tools we use or how we handle this information, we will update this page and, where appropriate, ask for your consent again. For any questions write to f.aguilarmarin2001@gmail.com. The processing of data obtained through cookies is detailed in the privacy notice.
